High Gloss Collection

High Gloss finishes never possessed such high appeal… until now!

With two types of 90° sheen high gloss surfaces, the High Gloss program features the aggressively priced Mera line which features a PET gloss film; while our Multa line has a durable UV Lacquer coating. Each gloss material possesses excellent resistance to heat, abrasions and household cleaning chemicals and can withstand UV rays which cause fading or discoloration. The final touch is the matching ABS 1mm edgeband, available to band your own cabinetry.
